

## **John Boyes 1915-2013**

John Boyes sadly died on May 6th 2013.

John was aged 98 and was a long standing member of the Section, joining in 1977 and serving as a committee member for many years.

He was well known for his many talks on behalf of the Section on watermills, and, having been a Health and Safety officer up to his retirement, helped us a great deal with our first Health & Safety leaflet. John was also a long-standing member of the Newcomen Society.

**Mildred**
