Climate

Record year for wind power in 2024

**Mark Poynting and Becky Dale**

BBC Climate & Verify data journalism teams

8 hours ago

Wind provided more electricity than ever last year as the UK moved further away from planet-warming fossil fuels to power the nation, new data shows.

Wind generated nearly 83 terawatt-hours (TWh) of electricity across Great Britain (England, Wales and Scotland), up from nearly 79TWh in 2023, show
