The Mills Archive Research Publication No.7

This is the history of the Brown family's involvement in flour milling between 1848 and 1954. During that time they owned, leased or operated ten mills, first in Waltham Abbey, then in Ware, Croydon, Wadesmill, Exeter, Bermondsey, Horley, St Albans, Cork, and lastly Vauxhall. Some were almost destroyed in fires and rebuilt with insurance money, others were sold following bankruptcies. The last were Charlie Brown's at Tower Bridge Flour Mills and the Royal Flour Mills on the Albert Embankment, but in 1954 the company was sold to Spillers, which promptly closed the mills.

The extent of the Brown family's flour milling has never been told before. It began with Frederick Shadrach Daniel Brown who built the Sun Flour Mills in Waltham Abbey in 1848 and was continued by four of his sons and one daughter through a critical period for the milling industry – when steam-powered stones were giving way to rollers and cheap grain was flooding in from North America. Only a few of their descendants have any memories of flour milling, so this short history is as much for them as for all those interested in how the industry changed over those years.

This is the seventh Mills Archive Research Publication. Previous issues are:

1. The Millers of Holgate (author A. J. Cook)
2. Mill Drawings by Stephen Buckland (editor M. Harverson)
3. Traditional Milling Technology in the English Cement Industry 1796-1899
(author Edwin A. R. Trout)
4. Windmills of Hampshire and the Isle of Wight (author Guy Blythman)
5. Tocketts: the story of a North Yorkshire township and its mill (authors John K. Harrison and Peter W. Morgan)
6. Saundersons – Millwrights and Engineers of Louth, Lincolnshire (author Jon A. Sass)

Mills Archive Research Publications

The Mills Archive Trust will publish winners of our Research Prize competitions. We are also happy to receive original research papers on mills and milling and the people involved with them to discuss possible publication.

The Research Management Board (RMB) of the Archive has the sole discretion on whether submissions are appropriate for publication and they need not explain their decision. All suitable submission are subject to confidential peer review by two authorities selected by the RMB. If the reviewers consider the paper to be acceptable for publication, then the author will be informed and sent the reviewers' comments to consider before submitting a revised version. If the paper is rejected, it is at the RMB's discretion to provide and critique, should that be requested.

All material is accepted on the understanding that the research has not been published elsewhere and that the authors have obtained the necessary copyright permission before submitting the paper. Copyright of Mills Archive Research Publications belongs to the Mills Archive Trust. Publication is free and authors will receive five copies of the issue containing their publication. Before the final paper is processed for publication, the author is asked to sign a declaration when ordering any reprints they may require in the future. They are provided at cost, provided they are paid for on ordering.

Instructions for authors

All papers must be submitted electronically, either by email or on disk in an editable format. Only English language submissions will be accepted. The text must be provided separately from any illustrations, graphs or tables. Positions in the text should be marked (Fig. 2., Table 1. etc) to indicate the preferred positions of figures etc. The corresponding figure should be labelled Fig. 1. etc and provided with a caption. Tables should be labelled Table 1. etc and given a suitable heading.

Ideally the text should be in MS Word or equivalent and images should be tiffs or high quality jpegs, at least 1000 pixels wide and preferably black and white. Images must not be embedded in the word processing file.

Our house style does not include footnotes. Instead, all such matter should be included in the references placed at the end of the paper. References should be numbered in sequence in the text (using superscript Arabic numerals) and citations listed in that sequence at the end.

References should be in the form:

Cook, AJ, "The Millers of Holgate", *Mills Archive Research Publication* (1) pp 3-45 (2013) or
Bennet, R and Elton, J, *History of Milling: Volume 1, Handstones, Slave and Cattle Mills*, Simpkin, Marshall and Co (1898).

The Mills Archive Trust

The Mills Archive was launched in 2002 and is managed by the Mills Archive Trust, an educational charity registered in England (No.1155828). It was established to: "*preserve and protect records of our milling heritage and make them freely available to the public*" and to "*promote encourage or undertake research and disseminate the useful results of such research*".

All correspondence should be directed to:
